PDRYAD Look up your journal

Dryad works with journals to integrate article submission with data submission, and encourages publishers to sponsor their authors' Data Publishing Charges (DPCs). All journals with integrated data submission and/or sponsored DPCs are listed below.

If your journal is not sponsored or does not appear on this list, and your institution is not a Dryad member, you will be responsible for paying the \$120USD DPC as well as any overage fees (if your submission is larger than 50GB).

When to submit*

- D = submit your data first, provide Dryad DOI when you submit your manuscript
- R = submit your MS first, then await journal instructions for data submission and review
- A = submit your MS first, then submit your data to Dryad upon article acceptance

Journal name		DPC sponsored?			
	Integrated	When to submit*	Data embargo allowed	Data embargoed until article publication
